INDEX TO VOLUME XXXIII, 1921.

PAGE

Aero Engines, by Alan E. L. Chorlton 738
Aircraft Engines, Some Possible Lines of Development in 591
Airship Calculations, Standardization of Data for 589
Akimoff, N. W., Four Years of Balancing Practice 261
American Society of Naval Engineers, Journal of, Index of Articles published or reprinted in February, 1913, to May, 1920, by N. H. Wright, Commander, U. S. N 69
Association Notes 222, 380, 639, 848
Bailey, Frank Harvey, Rear Admiral, U. S. N., Obituary 373
Balancing Practice, Four Years of, by N. W. Akimoff 261
Battle of Jutland, Technical Results of 606
Battleship, Our First Electric 551
Bennett, J. J., Direction-Finding Wireless 815
Bilge Keels or Gyro-Stabilizers 360
Blading, Turbine, Low Pressure, Failures in Destroyers, by D. F. Ducey, Lieut. Commander, U. S. N 512
Boiler Furnace Insulation, by Frank W. Sterling, Lieut. Commander, U. S. N., (Ret.) 268
Brunelli, Prof. P. E., Critical Speed of Propeller Shafts 711
Buckingham, E., Use of Models in Investigating the Resistance of Ship Structures to External Explosions 227
Buckling, Flexural 362
Burkhardt, John E., Propeller Thrust Measurements on U. S. S. *Pruitt* 14
Cable Motorship for Western Union Telegraph Co., Six Thousand Ton 802
Cables, Electrically Energized, Piloting Vessels by, by A. Crossley 33
Capital Ships, New (British) 735
Cavitation 807
Cavitation, Notes on Results of Experimental Research Regarding as Affecting Propulsive Efficiency, by Edwin Richard Mumford 809
Chorlton, Alan E. L., Aero Engines 738
Cleary, F. J., Commander, U. S. N., Machining Projectile Forgings at Navy Yard, Mare Island 658
Clutches, Main Engine, for German Submarines 335
Coast Guard Cutters *Tampa*, *Haida*, *Modoc* and *Mojave*, Description, by Q. B. Newman, Engineer-in-Chief, U. S. C. G 691
Critical Speed of Propeller Shafts, by Prof. P. E. Brunelli 711
Critical Torsional Number of Revolutions, Contribution on the Calculation of, by Fr. Sass 836
Crossley, A., Piloting Vessels by Electrically Energized Cables 33
Daniels, Hon. Josephus, Secretary of the Navy, Extracts from Address of, at Banquet of A. S. N. E., December 18, 1920 60
Destroyer, American, Hits Mine in the Baltic 332

PAGE
Diesel-Electric Drive Applied to Marine Propulsion Advantages of.. 799
Diesel Engines, Fuel Oil in 147
Diesel Engines, Fuel Oil for..... 574
Diesel Engines, Large, for Mercantile Marine, Recent Progress in, by James Richardson, B. Sc. 796
Direction-Finding Wireless, by J. J. Bennett 815
d'Orcy, Ladislas, Lesson of the ZR-2 Disaster..... 813
Double Acting, Two Stroke Engines, The First Motorship With... 804
Double Bottoms of Ships, Improvements in..... 825
Dry Docks, Floating, for Testing Submarines..... 617
Ducey, D. F., Lieut. Commander, U. S. N., Low Pressure Turbine Blading Failures in Destroyers 512
Duralumin, Its Properties and Commercial Possibilities, by William B. Stout 832
Emmet, W. L. R., Address at the Banquet A. S. N. E., December 18, 1920, on Development of Talent in the Navy..... 64
Engineering Talent in the Navy, Development of, Address of Mr. W. L. R. Emmet at the Banquet A. S. N. E, December 18, 1920.. 64
Experiments, Model, In Connection with Submarine Warfare..... 343
Explosions, External, Resistance of Ship Structures to, Use of Models in Investigating, by E. Buckingham..... 227
Floating Dry Dock for Testing Submarines..... 617
Forgings, Projectile, Machining at Navy Yard, Mare Island, by F. J. Cleary, Commander, U. S. N. 658
Gas and Other Special Shell, Use of, in Naval Warfare..... 638
Gearing, Double Reduction 568
Gearing, Reduction, Mechanical 176
Gears, Reduction, Mechanical, on Warships and Merchant Ships... 552
Gears, Reduction, Mechanical, for Warships and Merchant Ships, by John H. Macalpine 826
German Long-Range Gun, Characteristics of..... 342
Gun Construction, One-Piece 339
Gun, Long-Range, Gertman, Characteristics of..... 342
Guy, Albert E., Major, Ord. Dept., U. S. A., A Practical Method of Calculating the Powder Pressure and the Velocity of Projectile Along the Bore of a Cannon 720
Gyro-Stabilizers, or Bilge Keels 360
Haida, Coast Guard Cutter, Description, by Q. B. Newman, Engineer-in-Chief, U. S. C. G. 691
Hehre, F. W., Notes on the Wiring Circuits for Main Propulsion, U. S. S. *New Mexico* 431
Hooper, S. C., Commander, U. S. N., Survey of Radio Situation, 1921 285
Hooper, Stanford C., Commander, U. S. N., The Lafayette Radio Station and its Relation to the United States Naval Communication Service and the World War 382

Oscillation of Otters, Experiments on 612
Otters, Oscillation of, Experiments on 612
Piloting Vessels by Electrically Energized Cables, by A. Crossley 33
Plating, Ships', Effects of Holes, Cracks and Other Discontinuities in 192
Powder Pressure and Velocity of Projectile Along the Bore of a Cannon, Practical Method of Calculating the, by Albert E. Guy, Major, Ord. Dept., U. S. A. 720
Problem of Hull and Its Screw Propeller 98
Projectile Forgings, Machining at Navy Yard, Mare Island, by F. J. Cleary, Commander, U. S. N. 658
Propellers, Bronze, Casting 576
Propeller, Screw and Hull, Problem of 98
Propeller Shafts, Critical Speed of, by Prof. P. E. Brunelli 711
Propellers, Ships': Note on Results of Experimental Research Regarding "Cavitation," as Affecting Propulsive Efficiency, by Edwin Richard Mumford 809
Pruitt, U. S. S., Description and Trial Performance, by Charles P. Wetherbee 1
Pruitt, U. S. S., Propeller Thrust Measurements of, by John E. Burkhardt 14
Pump, Quimby, Screw, Description and Test, by Wm. R. Purnell, Lieut. Commander, U. S. N. 643
Purnell, William R., Lieut. Commander, U. S. N., Description and Test of a Quimby Screw Pump 643
Quimby Screw Pump, Description and Test, by Wm. R. Purnell, Lieut. Commander, U. S. N. 643
R-38, H. M. Airship 585
Radio on Station, Lafayette, Station and Its Relation to the United States Naval Communication Service and the World War, by Stanford C. Hooper, Commander, U. S. N. 383
Radio Situation, 1921, Survey of, by S. C. Hooper, Commander, U. S. N. 285
Radio Telegraphy, Determination of the Direction of Atmospheric Disturbances or Static in 577
Reduction Gearing, Double 568
Reduction Gearing, Mechanical 176
Reduction Gears, Mechanical, on Warships and Merchant Ships 552
Reduction Gears, Mechanical, for Warships and Merchant Ships, by John H. Macalpine 826
Reviews, Book 219, 377, 847
Richardson, James, B. Sc. Recent Progress in Large Diesel Engines for the Mercantile Marine 796
Rivets and Rivet Spacing 353
Shafts, Propeller, Critical Speed of, by Prof. P. E. Brunelli 711
Ships' Plating, Effects of Holes, Cracks and Other Discontinuities in 192

PAGE
Standardization of Data for Airship Calculations 589
Standardization in the Testing of Welds, Desirability of 317
Static, or Atmospheric Disturbances in Radio Telegraphy, Determination of Direction of 577
Sterling, Frank W., Lieut. Commander, U. S. N. (Ret.), Boiler Furnace Insulation 268
Stout, William B., Duralumin; Its Properties and Commercial Possibilities 832
Submarine Vessels, Strength of 623
Warfare, Model Experiments in Connection With 343
Submarines, German, Main Engine Clutches for 335
Testing, Floating Dry Dock for 617
Superheating on Board Ship 575
Tampa, Coast Guard Cutter, Description, by Q. B. Newman, Engineer-in-Chief, U. S. C. G. 691
Thrust Measurements, Propeller, U. S. S. *Pruitt*, by John E. Burkhardt 14
Thrust, Propeller, Measurement of 177
Turbine Blading, Low Pressure, Failures in Destroyers, by D. F. Ducey, Lieut. Commander, U. S. N. 512
Turbine, Internal Combustion, The 331
Steam, Development 329
Velocity and Powder Pressure of Projectile Along the Bore of a Cannon, A Practical Method of Calculating The, by Albert E. Guy, Major, Ord. Dept., U. S. A. 720
Warships, Future of 541
Welds, Testing of, Desirability of Standardization in the 317
Wetherbee, Charles P., U. S. S. *Pruitt*, Description and Trial Performance 1
Wiring Circuits for Main Propulsion, U. S. S. *New Mexico*, Notes on, by F. W. Hehre, E. E. 431
Wireless, Direction-Finding, by J. J. Bennett 815
Wright, N. H., Commander, U. S. N., Index of Articles Published or Reprinted in JOURNAL OF THE AMERICAN SOCIETY OF NAVAL ENGINEERS, February, 1913, to May, 1920 69
Zoelly Steam Turbine Condensing Locomotive 825
ZR-2. Lesson of Disaster to, by Ladislas d'Orey 813
